Flat 2, DSS quarters, KMC street, behind NNPC, Karu site, Abuja.

PROFESSIONAL SUMMARY

Creative and detail-oriented Product Designer, UI/UX Designer, and Frontend Developer with experience designing and developing intuitive, user-centered digital products. Passionate about creating modern web and mobile experiences with a strong emphasis on usability, accessibility, and scalable design systems. Skilled in translating business requirements into elegant user interfaces and interactive prototypes while collaborating effectively across multidisciplinary teams.

EDUCATION

National Open University of Nigeria (NOUN)

Bachelor's Degree in Information Technology (*In Progress*)

2024 – Present

- Currently pursuing a degree in Information Technology with a focus on software development, networking, databases, and modern computing technologies.
- Continuously applying academic knowledge to real-world projects in UI/UX design, frontend development, fintech, and AI.

CORE COMPETENCIES

Product Design

- User Interface (UI) Design
- User Experience (UX) Design

- Wireframing
- Interactive Prototyping
- Design Systems
- User Flows
- Information Architecture
- Responsive Design
- Design Thinking
- Usability Testing

Frontend Development

- React
- React Native
- JavaScript (ES6+)
- TypeScript
- HTML5
- CSS3
- Tailwind CSS
- REST API Integration
- Firebase
- Git & GitHub

Tools

- Figma
- Adobe Photoshop
- Adobe Illustrator
- Visual Studio Code
- GitHub
- Firebase Console

PROJECT EXPERIENCE

Fintech Payment Gateway Platform

Product Designer & Frontend Developer

Designed and developed a modern payment platform supporting digital payments, merchant services, and cryptocurrency features.

Highlights

- Created responsive web interfaces.
- Designed scalable user journeys.
- Built reusable UI components.
- Improved usability through intuitive navigation.
- Focused on performance and accessibility.

Technologies: React • Firebase • Figma • REST APIs

AI Chatbot Platform

Designed and developed an intelligent AI-powered chatbot capable of assisting users across multiple subject areas.

Highlights

- Designed conversational user interfaces.
- Integrated AI workflows.
- Improved user interaction and accessibility.
- Structured scalable frontend architecture.

Technologies: React • Python • Machine Learning • Firebase

Solar Energy Digital Platform

Designed a modern digital experience showcasing renewable energy solutions, solar products, and clean energy services.

Highlights

- Responsive landing pages.
- Product showcase interfaces.
- Marketing-focused user experience.
- Performance optimization.

Technologies: Figma • React • HTML • CSS

TECHNICAL SKILLS

Languages

- JavaScript
- TypeScript
- HTML5
- CSS3

Frameworks & Libraries

- React
- React Native
- Tailwind CSS

Backend & Services

- Firebase
- Firestore
- REST APIs

Version Control

- Git
 - GitHub
-

DESIGN PHILOSOPHY

I believe exceptional digital products are created through the balance of aesthetics, usability, accessibility, and technical excellence. Every interface should solve real problems while providing users with intuitive and memorable experiences.

PROFESSIONAL STRENGTHS

- User-centered design
 - Problem solving
 - Analytical thinking
 - Design systems
 - Rapid prototyping
 - Cross-functional collaboration
 - Attention to detail
 - Adaptability
 - Continuous learning
